

Cushion Solution

Thank you for choosing our Cushion Solution. The perfect way to reduce ring size in seconds. Also, an ideal way to make clip on earrings more comfortable and stop pinching. We hope you will be satisfied with your purchase.

Please read instructions for use and precautions before using this product.

Warning:

- Keep out of reach of children.
- Do not use this product if you have sensitivity to silicone products.
- **Avoid eye contact** – if product gets in the eyes, flush out with water for 15 minutes and seek medical attention if irritation persists.
- If the solution comes in to contact with the skin while applying, wash immediately with soap and water.
- Use in a ventilated area.
- Close cap securely after use.
- Wash hands thoroughly after use.
- Do not touch hands or face whilst using this product.
- Store away from heat in a dry area below 80°F.

Before use:

- Ensure the surface of the ring or earring is clean, free of oil and residue and dry.
- For best results, use Isopropyl rubbing alcohol on a cotton bud before use.

Rings:

- Apply the solution to the inside of the band of the clean and dry ring.
- Do not use your finger to smooth out the solution.
- Using the side of the tube funnel, smooth out the solution to ensure removal of air pockets and firm contact with the surface.
- Wipe excess solution from the ring, funnel or tube with a clean cloth.
- Dry in a vertical position for 24hours.
- Scrape off dried excess with fingernail and then wash hands thoroughly.
- To remove, peel off.
- Please note, if these instructions are not followed, the cushion solution may come off when washing hands.

Earrings:

- Apply solution to the pad and place an equal amount on the back of the earring where the pad and earring meet.
- Leave the earring open and allow to dry for 24 hours.
